Contents

ACKNOWLEDGMENTS ............................................................... ix

CHAPTER 1
The Importance of Process ........................................... 1

CHAPTER 2
Process Mapping ............................................................. 19

CHAPTER 3
Key Stakeholders’ Roles and Responsibilities .................. 47

CHAPTER 4
Getting Started on Process Improvement ......................... 55

CHAPTER 5
The Ten-Step Redesign Methodology ............................ 65

CHAPTER 6
Introduction to Process Improvement 
and Creating the Process Team ................................. 77

CHAPTER 7
The Four Lenses of Analysis ........................................... 85

CHAPTER 8
Customer Report Card, Benchmarking, 
and Best Practices ...................................................... 129
CHAPTER 9
Process Redesign Case Study ........................................ 139

CHAPTER 10
Design Principles for Process Redesign ............................ 151

CHAPTER 11
Creating a Clean-Sheet Redesign ................................... 163

CHAPTER 12
Barriers to Process Redesign ......................................... 171

CHAPTER 13
Becoming a Process-Focused Organization ....................... 181

CHAPTER 14
Building Cross-Department Process Management ............... 193

CHAPTER 15
Using Dynamic Simulation in Business Process Management ... 213

APPENDICES
Appendix A: Design Principles for Process Redesign .......... 259
Appendix B: Process Classification Framework .................. 269
Appendix C: Process Cycle Timesheet ............................... 299
Appendix D: Glossary .................................................. 301

INDEX ................................................................. 305
