Chapter 1 Getting Started with mental ray® in 3ds Max	3
1.1 Introduction	3
1.2 Important Information before We Get Started	4
1.2.1 Software Driver	4
1.2.2 Units	5
1.3 Concepts	6
1.3.1 Shaders	6
1.3.2 Global Illumination	7
1.3.2.1 Direct Light	8
1.3.2.2 Shadows	8
1.3.2.3 Bounced Light	9
1.3.2.4 Environment Light	10
1.3.2.5 Materials	10
1.3.2.6 Caustics	10
1.3.2.7 Volumetric Effect	11
1.3.3 Final Gather	12
1.3.4 Photons	12
1.3.5 Ambient Occlusion	13
Chapter 2 Rendering with mental ray inside 3ds Max	17
2.1 Switching on mental ray	17
2.2 mental ray and Indirect Illumination	21
2.2.1 Introduction	21
2.2.2 Indirect Illumination	22
2.2.2.1 Final Gather (Exterior)	22
2.2.2.2 Final Gather (Interior)	27
2.2.2.3 Caustics	36
2.2.2.4 Global Illumination	41
2.2.2.5 Global Illumination and Final Gather Combination	47
2.3 mental ray and Hidden Lines Contour Rendering	49
2.3.1 Introduction	49
2.3.1.1 Setting Up mental ray for Contour Line Rendering	50
2.3.2 Contour Component Shaders	52
2.3.2.1 Introduction	52
2.3.2.2 Contour Contrast Component	53
2.3.2.3 Contour Store Component	56
2.3.2.4 Contour Output Component	56

2.3.2.5	Contour Composite Shader	56
2.3.2.6	Contour Only Shader	57
2.3.2.7	Contour PS (PostScript) Shader	59
2.3.3	Contour Line Shaders	60
2.3.3.1	Simple Contour Shader	60
2.3.3.2	Width from Color Contour Shader	61
2.3.3.3	Width from Light Shader	62
2.3.3.4	Width from Light Dir Shader	63
2.3.3.5	Curvature Contour Shader	64
2.3.3.6	Depth Fade Contour Shader	65
2.3.3.7	Factor Color Contour Shader	66
2.3.3.8	Layer Thinner Shader	67
2.3.3.9	Combi Contour Shader	69
2.4	mental ray and Camera Shaders	69
2.4.1	Introduction	69
2.4.2	Camera Lens Shaders	69
2.4.2.1	Distortion Shader	70
2.4.2.2	Night Shader	71
2.4.2.3	WrapAround Shader	74
2.4.3	Camera Output Shaders	75
2.4.4	Camera Volume Shaders	75
2.4.4.1	Beam Shader	75
2.4.4.2	Mist Shader	77
2.4.4.3	Parti Volume Shader	79
2.5	mental ray and Displacement	83
2.5.1	Introduction	83
2.5.2	Displacement without Special Shaders	84
2.5.3	Displacement Based on the 3D Displacement Shader	86
2.5.4	Displacement Based on the Height Map Displacement Shader	90
2.6	mental ray and Motion Blur	92
2.7	mental ray and Depth of Field	96
Chapter 3 mental ray and Lights		101
3.1	Introduction	101
3.2	Standard Lights	101
3.2.1	Omni and Spots	101
3.2.2	Skylight	104
3.2.3	mental ray Area Lights (mr Omni and mr Spot)	105
3.3	Photometric Lights	109
3.3.1	Photometric Lights	109
3.3.2	IES Sun and IES Sky	110
3.3.3	Daylight System (IES Sun and IES Sky)	113
3.3.4	Daylight System (mr Sun and mr Sky)	115

3.4	mental ray—Specific Light Rollouts and Shaders	127
3.4.1	mental ray Indirect Illumination Rollout	127
3.4.2	mental ray Light Shader Rollout	128
3.4.2.1	Ambient/Reflective Occlusion Shader	128
3.4.2.2	Light Infinite Shader	132
3.4.2.3	Light Point Shader	133
3.4.2.4	Light Spot Shader	135
Chapter 4	mental ray and Materials	139
4.1	Introduction	139
4.2	Arch & Design Material	140
4.2.1	Introduction	140
4.2.2	User Interface	145
4.3	Car Paint	160
4.4	mental ray Material	167
4.5	DGS Material	171
4.6	Glass Material	173
4.7	SSS Materials	176
4.7.1	SSS Fast Material	176
4.7.2	SSS Fast Skin Material	180
4.7.3	SSS Fast Skin Material plus Displacement	186
4.7.4	SSS Physical Material	187
Chapter 5	mental ray and Shaders	191
5.1	Introduction	191
5.2	Material-Related Shaders	192
5.2.1	DGS Material Shader	192
5.2.2	Dielectric Material Shader	193
5.2.3	Metal Shader	195
5.2.4	Car Paint Shader	198
5.2.5	SSS Physical Shader	198
5.2.6	Glass Shader	201
5.2.7	Landscape Shader	207
5.2.8	Ambient/Reflective Occlusion Shader	211
5.2.9	Parti Volume and Parti Volume Photon Shaders	213
5.2.10	Translucency Shader	215
5.2.11	Bump Shader	217
5.2.12	Environment Shader	219
5.2.13	Glow Shader	220
5.2.14	Material to Shader	223
5.2.15	Shader List Shader	225
5.2.16	Transmat Shaders	227
5.2.17	Photon Basic Shader	228

5.3	Water-Related Shaders	230
5.3.1	Water Surface Shader	230
5.3.2	Water Surface Shadow Shader	232
5.3.3	Submerge Shader	232
5.3.4	Wet-Dry Mixer Shader	233
5.3.5	Ocean Shader	234
