<i>Introduction: the craft of 'doing research' in spatial and regional planning</i>	xxiv
Elisabete A. Silva, Patsy Healey, Neil Harris, and Pieter Van den Broeck	

PART 1

Personal reflections on research careers 1

1.1	Introduction	3
	<i>Patsy Healey, School of Architecture, Planning and Landscape, Newcastle University, UK</i>	
1.2	Learning the craft of research: a continuing process	5
	<i>Patsy Healey, School of Architecture, Planning and Landscape, Newcastle University, UK</i>	
1.3	Shifting between academia and practice: reflections on doing planning research in a university environment	12
	<i>Neil Harris, Cardiff School of Planning and Geography, Cardiff University, UK</i>	
1.4	Research methodology and my life: some personal reflections	18
	<i>Mee Kam Ng, Department of Geography and Resource Management, Chinese University of Hong Kong, Hong Kong</i>	

1.5	It takes more than just <i>looking</i> to make a difference: the challenge for <i>planning</i> research	24
	<i>Heather Campbell, Department of Town and Regional Planning, Sheffield University, UK</i>	
1.6	The life-changing transitions of an academic research career	33
	<i>Elisabete A. Silva, Department of Land Economy, University of Cambridge, UK</i>	
1.7	Learning the craft of academic writing	40
	<i>John Forester, Department of City and Regional Planning, Cornell University, USA</i>	
PART 2		
	The craft of research	55
2.1	Introduction	57
	<i>Patsy Healey, School of Architecture, Planning and Landscape, Newcastle University, UK</i>	
2.2	Research design	61
	<i>Jacques du Toit, Department of Town and Regional Planning, University of Pretoria, South Africa</i>	
2.3	Planning research ethics	74
	<i>Huw Thomas, School of Geography and Planning, Cardiff University, UK, and Francesco Lo Piccolo, University of Palermo, Italy</i>	
2.4	What can we learn from France? Some reflections on the methodologies of cross-national research	84
	<i>Philip Booth, Department of Town and Regional Planning, Sheffield University, UK</i>	
2.5	Towards social holism: social innovation, holistic research methodology and pragmatic collective action in spatial planning	97
	<i>Frank Moulaert, Department of Architecture, Urbanism and Spatial Planning, University of Leuven, Belgium, and Abid Mehmood, Sustainable Places Research Institute, Cardiff University, UK</i>	
2.6	Refutation and the knowledge base of urban planning	107
	<i>Chris Webster, Faculty of Architecture, University of Hong Kong, Hong Kong</i>	
2.7	Inquiry and design for spatial planning: three approaches to planning research in late modern cities	121
	<i>Pier Carlo Palermo and Davide Ponzini, Department of Architecture and Planning, Politecnico di Milano, Italy</i>	

PART 3

Working within a qualitative tradition	133
3.1 Rediscovering qualitative research <i>Pieter Van den Broeck, Department of Architecture, Urbanism and Spatial Planning, University of Leuven, Belgium</i>	135
3.2 Analysing qualitative data <i>Robert Mark Silverman, Department of Urban and Regional Planning, University at Buffalo, USA</i>	140
3.3 Researching community engagement in post-1997 Hong Kong: collaborative or manipulative practice? <i>Mee Kam Ng, Department of Geography and Resources Management, Chinese University of Hong Kong, Hong Kong</i>	157
3.4 Planning for the place: ethnographic research and planning practice <i>Sandra Lee Pinel, University of Idaho, USA</i>	169
3.5 Researching professional perspectives in practice: a pedagogic-ethnographic approach <i>Maria Håkansson, Urban and Regional Studies, Royal Institute of Technology, Stockholm, Sweden</i>	182
3.6 Analysing cartographic representations in spatial planning <i>Stefanie Dühr, Nijmegen School of Management, Radboud University Nijmegen, Netherlands</i>	192
3.7 Urban morphology and cultural expressions: qualitative methods to understand the city's dynamic in a self-built area in Caracas, Venezuela <i>Gabriela Quintana Vigiola, School of Built Environment, Faculty of Design, Architecture and Building, University of Technology, Sydney, Australia</i>	202
3.8 A value-oriented approach to discursive analysis of urban and regional planning <i>W.W. Buunk and L.M.C. van der Weide, Windesheim University of Applied Sciences, Netherlands</i>	213
3.9 Imagination as a method for generating knowledge about possible urban futures <i>Diane Davis, Harvard University Graduate School of Design, USA, and Tali Hatuka, Department of Geography and Urban Environment, Tel Aviv University, Israel</i>	225

3.10	From wicked problems to elusive planning: exploring Dubai's development conundrum	235
	<i>Mahyar Arefi, School of Planning, University of Cincinnati, USA</i>	
PART 4		
	Working within a quantitative tradition	249
4.1	Quantitative methods' expertise – a diverse landscape in Europe and around the world	251
	<i>Elisabete A. Silva, Department of Land Economy, University of Cambridge, UK</i>	
4.2	Thinking spatially, thinking statistically	255
	<i>Robert Haining, Department of Geography, University of Cambridge, UK</i>	
4.3	Indicators and spatial planning: methods and applications	268
	<i>Cecilia Wong, Centre for Urban Policy Studies, School of Environment, Education and Development, University of Manchester, UK</i>	
4.4	Measuring space: a review of spatial metrics for urban growth and shrinkage	279
	<i>José P. Reis, Elisabete A. Silva, Department of Land Economy, University Cambridge, UK, and Paulo Pinho, Research Centre for Territory, Transports and Environment, School of Engineering, University of Porto, Portugal</i>	
4.5	Regression analysis in planning research	293
	<i>Helen Bao, Department of Land Economy, University of Cambridge, UK</i>	
4.6	Spatial econometrics in practice	311
	<i>Pedro Pires de Matos, Department of Forestry and Environmental Resources, University of North Carolina, USA</i>	
4.7	Planning support systems (PSS) as research instruments	322
	<i>Stan Geertman, Department of Human Geography and Spatial Planning, Utrecht University, Netherlands</i>	
4.8	Geoprocessing and spatial planning: some concepts and applications	335
	<i>Jorge Xavier da Silva, Department and Lab of Jorge Xavier da Silva, Geoprocessing Laboratory/Institute of Geosciences, Federal University of Rio de Janeiro, Brazil; Tiago Badre Marino, Department of Geosciences, Federal Rural University of Rio de Janeiro, Brazil; and Maria Hilde de Barros Goes, Institute of Agronomy/Department of Geosciences, Federal Rural University of Rio de Janeiro, Brazil</i>	

4.9	Spatial simulation and the real world: digital methods and techniques in the context of strategic planning <i>Claudia Yamu and Andreas Voigt, Faculty of Planning and Architecture, Vienna University of Technology, Austria; and Pierre Frankhauser, Université de Franche-Comté, France</i>	348
4.10	Spatial data infrastructures for spatial planning research <i>Max Craglia, Joint Research Centre of the European Commission, European Commission, Europe</i>	364
4.11	Urban sprawl and region building <i>Gu Chaolin, School of Architecture and Department of Urban Planning, Tsinghua University, China</i>	375
PART 5		
Methodology in action		399
5.1	Methodology in action: the relationship between research and practice <i>Neil Harris, Cardiff School of Planning and Geography, Cardiff University, UK</i>	401
5.2	Research impact: should the sky be the limit? <i>Simin Davoudi, School of Architecture, Planning and Landscape, Newcastle University, UK</i>	405
5.3	Enabling transdisciplinary research on social cohesion in the city: the Social Polis experience <i>Davide Cassinari and Frank Moulaert, Department of Architecture, Urbanism and Spatial Planning, University of Leuven, Belgium</i>	414
5.4	Researching for policy relevance: critical reflections on government-sponsored research <i>Deborah Peel and Greg Lloyd, Built Environment Research Institute, University of Ulster, UK</i>	426
5.5	Using the case study approach to inform planning practice and research in Africa <i>James Duminy, African Centre for Cities, University of Cape Town, South Africa</i>	440
5.6	Urban master planning in China: a case study of policy and practice in Hua County <i>Guanzeng Zhang, Baoyu Wang and Xinyan Jiang, Tongjin University, China</i>	449

5.7	Conceptual and epistemic uncertainty in planning: research for the renewal of industrial areas in Sweden	465
	<i>Anders Törnqvist, Blekinge Institute of Technology, Sweden</i>	
5.8	Cost-benefit analysis in participatory planning: a critical perspective	479
	<i>Tore Sager, Department of Civil and Transport Engineering, Norwegian University of Science and Technology (NTNU), Norway</i>	
5.9	The strategic use of the charrette process for applied research	492
	<i>Zeenat Kotval-K and John R. Mullin, Department of Landscape Architecture and Regional Planning, University of Massachusetts-Amherst, USA</i>	
5.10	Engaging and educating young people in sustainable development: communicating research findings and planning practice in an active learning environment	502
	<i>Angela Million, Institute for Urban and Regional Planning, Berlin University of Technology, Germany, and Patricia Machemer and Zenia Kotval, School of Planning Design and Construction, Michigan State University, USA</i>	
	<i>Index</i>	519
