Introduction	xvii
1 Defining and debating the problem	1
<i>Piers Blaikie and Harold Brookfield</i>	
1 Land degradation and society: initial statements	1
2 Definitions of value, capability and degradation	4
3 The role of land management	7
4 Conceptualizing the role of land management	10
5 Relationships between society and land degradation	13
6 The approach adopted in this book	15
7 The margin and marginality	19
8 Degradation, hazards and the environmental paradigm	23
9 The social scientist's contribution: the need for open minds	24
10 Summary and conclusion	26
2 Approaches to the study of land degradation	27
<i>Piers Blaikie and Harold Brookfield</i>	
1 Chains of explanation	27
2 Population and land degradation	27
3 Behavioural questions and their context	34
4 The erosion problem in crowded Nepal – crisis of environment or crisis of explanation?	37
3 Measuring land degradation	49
<i>Mike Stocking</i>	
1 Introduction	49
2 Problems of measuring land degradation	51
3 Types of measurement of land degradation	56

4	The case of erosion-induced loss of soil productivity	61
5	Conclusion	63
4	Decision-making in land management	64
	<i>Piers Blaikie and Harold Brookfield</i>	
1	Scale: spatial and temporal	64
2	Land management: who is the manager?	74
3	Conclusion	83
5	Economic costs and benefits of degradation and its repair	84
A	Issues in the economic evaluation of soil and water conservation programmes	84
	<i>David Seckler</i>	
1	Introduction: conceptual and empirical issues in soil and water conservation	84
2	Basic economic concepts	87
3	The agricultural benefits of SWC programmes	91
4	The costs of SWC programmes: estimating the labour requirements of bench terracing	93
5	Estimating external costs and benefits	95
6	Conclusion	96
B	On measurement and policy, scientific method and reality	97
	<i>Piers Blaikie and Harold Brookfield</i>	
6	Colonialism, development and degradation	100
	<i>Piers Blaikie and Harold Brookfield</i>	
1	Introduction	100
2	The contradictions of colonialism	101
3	The impact of colonial rule on land management in Africa	105
4	The colonial state and the degradation problem	110
5	Some Asian contrasts	111
6	Colonialism, capitalism and the hills	113
7	Conclusion	120
7	Questions from history in the Mediterranean and western Europe	122
	<i>Piers Blaikie and Harold Brookfield</i>	
1	The longer view and its implications for analysis	122

2	Erosion in the Mediterranean: human or natural?	123
3	Northern and eastern France in the eighteenth century	126
4	Questions over a longer history in western Europe	137
5	Conclusion	140
8	Degradation under pre-capitalist social systems	143
A	Degradation and adaptive land management in the ancient Pacific	143
	<i>Piers Blaikie and Harold Brookfield, with William Clarke</i>	
B	Degradation and a pre-capitalist political economy: the case of the New Guinea highlands	145
	<i>Bryant Allen and Robert Crittenden</i>	
1	Argument and background	145
2	The conditions of degradation	151
3	The Kakoli case and some other evidence	152
4	Conclusion	155
9	Management, enterprise and politics in the development of the tropical rain forest lands	157
A	From forest and grass into cropland	157
	<i>Piers Blaikie and Harold Brookfield</i>	
1	Relevant questions	157
2	Peasants, planters and settlers	159
3	Conclusion	163
B	Degradation, innovation and social welfare in the Riam Kiwa valley, Kalimantan, Indonesia	164
	<i>Lesley Potter</i>	
1	Introduction	164
2	Three communities compared	169
3	Discussion	173
4	Does degradation matter? And for whom?	175
C	Land mismanagement and the development imperative in Fiji	176
	<i>William Clarke, with John Morrison</i>	
1	The expansion of cultivation and degradation	176
2	Institutional and structural factors	179
3	Adaptive land management: institutional consciousness and implementation	181
4	The political dimension	184

10	The degradation of common property resources	186
A	Common property resources and degradation worldwide	186
	<i>Piers Blaikie and Harold Brookfield</i>	
1	Common property resources – a definition	186
2	Modelling the management of CPRs	188
3	CPRs, private property resources and the state	190
4	Pressures on CPRs	192
B	A case study of the degradation of common property resources in India	196
	<i>Narpat Jodha</i>	
1	Introduction	196
2	Decline of CPRs	198
3	Factors underlying CPR degradation	203
4	Consequences of CPR decline	205
11	Land degradation in socialist countries	208
A	Socialism and the environment	208
	<i>Piers Blaikie and Harold Brookfield</i>	
1	Is there a distinctive socialist environmental management?	208
2	Socialist ideology and the environment	209
3	Land management and degradation in the USSR	211
B	Land degradation in China: an ancient problem getting worse	214
	<i>Vaclav Smil</i>	
1	The Great Leap Forward . . . to destruction	214
2	The new transformation of China and its consequences	220
12	The farmer, the state and the land in developed market economies	223
A	New conservation crisis in the 'North'?	223
	<i>Piers Blaikie and Harold Brookfield</i>	
1	Reasons for concern	223
2	Conservation in the United States of America	224
3	Structural changes and their consequences	227
4	New trends	228
B	The sociology and politics of land degradation in Australia	232
	<i>Judy Messer</i>	
1	An historical overview	232

2	The current status of agrarian land use in Australia	234
3	Conclusion	238

13 Retrospect and prospect **239**

Piers Blaikie and Harold Brookfield

1	Concluding comments on the book's approach	239
2	Some conclusions from case material	240
3	Ways forward	241
4	The earth does not abide	248
