Introduction **1**

1 Setting the scene	3
1.1 Rationale and scope	3
1.2 Overall aim	9
1.3 Outline	11
1.4 Format and style	11

Part 1: Theoretical framework **13**

2 Sorting out the conceptual 'jungle' associated with urban risk reduction and adaptation	15
2.1 Basic concepts	18
2.2 Measures for reducing and adapting to increasing risk	34
2.3 Processes and working fields related to risk reduction and adaptation	44
2.4 Mainstreaming risk reduction and adaptation into urban planning	55
2.5 From urban planning to urban risk governance	63
2.6 From risk governance to urban flow management	67

2.7	Summary – for action taking	69
2.8	Test yourself – or others	72
2.9	Guide to further reading	76
2.10	Web resources	77
3	The city–disasters nexus: a two-way relationship	80
3.1	City features	81
3.2	Cities' influence on disasters	87
3.3	Disaster impacts on cities	102
3.4	Climate change: reinforcing the city–disasters nexus	110
3.5	Differences in cities' risk patterns	114
3.6	Summary – for action taking	117
3.7	Test yourself – or others	120
3.8	Guide to further reading	121
3.9	Web resources	122
Part 2:	Current practice	125
4	City authorities' approaches to urban risk reduction and adaptation	127
4.1	Overview of prevailing measures	129
4.2	Overview of prevailing mainstreaming strategies	150
4.3	Differences in institutional approaches: current planning practice and increasing risk	165
4.4	City-to-city (and -citizens) knowledge transfer	175
4.5	Summary – for action taking	180
4.6	Test yourself – or others	183
4.7	Guide to further reading	186
4.8	Web resources	187
5	City dwellers' own ways to reduce and adapt to urban risk	189
5.1	Coping through hazard reduction and avoidance	191
5.2	Coping through vulnerability reduction	193
5.3	Coping through preparedness for response	204
5.4	Coping through preparedness for recovery	211
5.5	Differences in city dwellers' approaches: from single coping strategies to the effectiveness of coping systems	216
5.6	Citizen-to-citizen (and -city) knowledge transfer	231
5.7	Summary – for action taking	234
5.8	Test yourself – or others	239

5.9	Guide to further reading	242
5.10	Web resources	243

Part 3: Moving forward	245
6 Towards sustainable urban risk governance and transformation	247
6.1 Theoretical versus practical planning approaches	247
6.2 City dwellers' versus city authorities' approaches	251
6.3 Bridging the gaps	255
6.4 From disaster resilience to sustainable urban transformation	275
6.5 Summary – for action taking	277
6.6 Test yourself – or others	278
6.7 Guide to further reading	280
6.8 Web resources	281
7 Concluding remarks	282
Notes	287
Bibliography	300
Index	321
