

PREFACE 7

---

1 THE DEVELOPMENT  
OF PLASTIC ARCHITECTURE 9

**PRINCIPLES**

---

2 MATERIAL PROPERTIES  
OF PLASTICS 15

- Forming characteristics and  
the manufacture of building  
elements 15
- Resistance to environmental  
effects 16
- Mechanical properties 16
- Thermal properties 17
- Flammability and fire  
performance 17
- Additives, fillers and reinforcing  
materials 18

---

3 BASICS OF PLASTICS 21

- Polymer structure 21
- The morphology  
of macromolecules 22
- The classification of plastics  
according to their degree  
of cross-linking 24
- Synthesising techniques 27

---

4 PLASTICS AND THEIR  
MANUFACTURE 29

- Elastomers 29
- Thermoplastics 32
  - Types 32
  - Manufacture 39
  - Working methods 44
  - Recycling 46
- Thermosets 48
  - Material components 48
  - Manufacture 50
  - Properties 57

**CONSTRUCTION**

---

5 FINISHED AND SEMI-FINISHED  
PRODUCTS 61

- Solid sheets and panels 61
- Profiled sheets and panels 66
- Sandwich panels 70
- Foams 76
- Profiles 77
- Special products 79

---

6 BUILDING WITH PLASTICS 81

- Thermoplastics 81
  - Screwing 81
  - Clamping 81
  - Bonding 82
  - Welding 85
- Thermosets 86
  - Screwing 86
  - Bonding 88
  - Dimensioning 92
  - Stability and  
durability 94

**CASE STUDIES**

---

7 PLASTICS AS BUILDING  
ENVELOPE 95

- Chanel Mobile Art Pavilion 96  
Hong Kong, China; Tokyo, Japan; New York, USA
- BMW Bubble 98  
Frankfurt and Berlin, Germany
- Kunsthau Graz 100  
Graz, Austria
- Emsdetten railway station 102  
Emsdetten, Germany
- Idee Workstation 106  
Tokyo, Japan
- Reiss Headquarters 108  
London, United Kingdom
- Fiberline Composites factory  
and offices 110  
Middelfart, Denmark

Farben des Konsums 112  
Berlin, Germany

Laban Creekside 114  
London, United Kingdom

Terminal V 116  
Lauterach, Austria

Forum Soft 118  
Yverdon, Switzerland

Polymer Engineering Centre 120  
Melbourne, Australia

Dornier Museum 122  
Friedrichshafen, Germany

Badajoz congress centre and  
auditorium 124  
Badajoz, Spain

---

## 8 PLASTICS AS BUILDING

STRUCTURE 127

Plastic tower sculpture 128  
Stuttgart, Germany

D-Tower 130  
Doetinchem, Netherlands

Hoofddorp bus station 132  
Hoofddorp, Netherlands

Roof Yitzhak Rabin Centre 136  
Tel Aviv, Israel

GRP/Glass Pavilion 138  
Düsseldorf, Germany

Plastic folded shell structure 140  
Stuttgart, Germany

---

## 9 PLASTICS AS BUILDING STRUCTURE

AND ENVELOPE 143

Clip-On 144  
Utrecht, Netherlands

Eiertempel 146  
Bern, Switzerland

Five Bubbles 148  
Vienna, Austria

fg 2000 150  
Altenstadt, Germany

Futuro 152  
Different locations worldwide

MYKO 154  
Weimar and Rostock, Germany

Novartis Campus reception  
building 156  
Basel, Switzerland

---

## 10 FUTURE DEVELOPMENTS 159

High-performance material  
for supporting structures 159

High-performance material  
for building envelopes 160

Composite materials 161

Reinforcement of supporting  
structures 163

Joining technologies appropriate  
to the material 164

New production methods 165

Technology transfer 166

---

Glossary 167

Bibliography 170

About the authors 173

Acknowledgements 173

Name and building index 174

Subject index 174
